

CANON VIXIA HF G20

The Canon VIXIA HF G20 camcorder is a powerful tool for HD video production. With multiple automatic video capture modes it is capable of taking professional quality footage even with the most inexperienced of users. It is capable of connecting to other devices using multiple content transfer techniques, and its combined built-in and expansion memory slots provide the potential for storing hours of video or photos.

Video/Audio Capture:

- Cinema-Look Filters
- AVCHD and MP4 Recording
- Smart AUTO
- Face Detection
- Image Stabilization

Connectivity:

- Connect directly to computer or HDTV using supplied AV cable
- Play video directly from SD card
- Supports Eye-Fi card for wireless content transfer
- Convert HD content to Standard Definition directly on the camera

Memory:

- 32GB internal memory
- Dual SD memory card slots
- Records up to 12 hours of HD video without additional memory
