

LOWEL® BLENDER™ 3 LIGHT KIT

The Lowel® Blender™ 3 Light Kit can be used to accompany camera shoots to improve lighting or manipulate light sources for the desired effect. The kit is equipped with 3 sets of lighting materials including a lamp, power attachment, lamp stand, and diffusers. Proven to be versatile, flexible, as well as portable this kit is sure to meet most media needs.

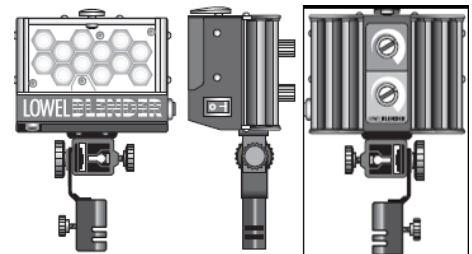

This description will provide detail about the included equipment and use that may be applied.

Lamps:

These 3 lamps work well in use for back, side, diffused, and artificial lighting. The Blender™ model lamps contain LED bulbs and knobs that allow the user to control the temperature and intenseness of each lamp.

- Compact 4.5 x 3.75 x 3.75 (L x W x H) Casing
- Primarily Aluminum Steel, and Thermo Plastic
- 1.2 lbs. (550 g)
- 6 Tungsten and 6 Daylight LED's per Lamp
- 16 Watt Output, AC Voltage
- 1 Tungsten and 1 Daylight Dimmer Knob

Diffusers:

Diffusers can be used to alter the light output of the lamps even further. There are three different front diffuser gradients that fit in a slot on each lamp.

- 3 Light Frost Diffusers
- 3 Cracked Ice Diffusers
- 3 Prismatic Diffusers

Uni-Stands:

Other essential parts in this kit are the 3 stands provided for each of the lamps. The aluminum stands have three legs and extend to a maximum of 7'11" tall. Screw knobs are used to secure the stand at each section.

AC/DC Power Adapters:

The kit includes 3 DC Camcorder Battery Sled Packs each with AC power attachments so that the lamps may be powered by battery or an outlet.
